**Review Report to the Board of Directors
Southern Power Distribution Company of Telangana Limited (Formerly known as
Central Power Distribution Company of Andhra Pradesh Limited)**

Introduction

We have reviewed the accompanying statement of unaudited financial results of M/s. **Southern Power Distribution Company of Telangana Limited** for the quarter and year ended 31st March, 2024. This statement is the responsibility of the Company's Management and has been approved by the Board of Directors. Our responsibility is to express a conclusion on this interim financial information based on our review.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with accounting principles generally accepted in India, including the Accounting Standards specified in Section 133 of the Act, read with Rule 7 of Companies (Accounts) Rules, 2014, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements. We conducted our review in accordance with Standard on Review Engagements (SRE) 2400 (Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements. A review of financial statements in accordance with SRE 2400 (Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained. The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

Basis for Qualified Conclusion:

1. We are informed that the Company is governed by the Electricity Act, 2003 and accordingly the provisions of the said Act would prevail, wherever the same are inconsistent with the provisions of the Companies Act, 2013 in terms of section 174 of the Electricity Act. Accordingly, in terms of section 185(2)(d) of the Electricity Act, the annual accounts of the Company have been prepared as per the rules prescribed under "Electricity (Supply) (Annual Accounts) Rules 1985. Accordingly, the Company has not complied with some of the mandatory Accounting Standards, as specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 and the requirements of Schedule – III to the Companies Act, 2013, details of which are given here under:

- a) Capitalization of administrative overheads (including staff cost) at 10% of the direct cost of the assets capitalized during the year as per the company's Accounting Policy No.1.5(c), amounting to Rs.34.10 Crores is not in accordance with Accounting Standard-10: "Property Plant and Equipment", as the same is not attributable as expenditure incurred directly to bring the said assets to working condition.
- b) As stated in Accounting Policy No.1.8, recognition of the contributions received from consumers and specific grants from the State/Central governments or their agencies for creation of tangible assets as "Reserves" on receipt basis, even before the creation of the said assets and adjustment of the same against depreciation on the proportionate value of the assets built out of the said contributions and grants, instead of the specific assets created with the said contributions/grants, which is contrary to Accounting Standard 12 "Accounting for Government Grants".
- c) Non-recognition of the "parcels of land" received at free of cost from State Government and its agencies in the books of account, as required by Accounting Standard 12 "Accounting for Government Grants".

2. Consequent to the creation of the State of Telangana, in accordance with the Andhra Pradesh Reorganization Act, 2014, the Anantapur and Kurnool operating business circles of the company have been reassigned to APSPDCL with effect from 2nd June, 2014 in accordance with G.O.Ms.No.24 dated 29th May 2014 issued by State of Andhra Pradesh. The company has recognized the transfer of assets and liabilities in the financial year 2015-16 of these two Circles in its books of account, as per the "Basis of Apportionment" mentioned in the said G.O. which is approved by the Expert Committee constituted by the Government of India, which is computed under the "pooling of interest" method. The company instead of recognizing the share of the said two Circles in the "Share Capital" of Rs.325.28 Crores as a reduction in the share capital, recognized Rs.723.01 Crores as "Capital Reserve" resulting in understatement of its negative net-worth by Rs.1,048.29 Crores and consequential overstatement of "Receivables."
3. Amount of Rs.3459.65 Crores towards surcharge on late payment payable to Singareni Thermal Power Plant (STPP) for the financial years 2019-20, 2020-21, 2021-22 & 2022-23 is neither paid nor provided in the books of account but disclosed under Contingent liabilities, resulting in understatement of Reserves & Surplus / Net loss and Trade Payables to the same extent.
4. Long Term Investments in the Balance Sheet are carried at cost at Rs.426.01 crores. The management has not accounted for the permanent diminution in the value of investments amounting as on 31.03.2023 as per the requirement of Accounting Standard - 13 "Accounting for Investments". Due to non-availability of audited financial statements of APPDCL for FY 2022-2023, we are unable to ascertain its impact on the Financial Statements.
5. Interest on JICA loan applied from 31.03.2016 instead of 20.06.2019, i.e due date for first instalment, resulting overstatement of Loss by Rs.4.52 crores.
6. Deferred Tax impact has not been accounted for.
7. Overall impact of the above Qualifications which are quantifiable is as follows:
 - a) Understatement of Net loss for the Quarter – Rs. 3,455.13 Crores
 - b) Understatement of Negative Net worth – Rs. 4,503.42 Crores

Qualified Conclusion

Based on our review conducted as above, with the exception of the matters described in the preceding paragraphs, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not give a true and fair view of the state of affairs of the Company as at March 31, 2024 and of its results of operations and its cash flows for the three month period then ended. And nothing has come to our attention that causes us to believe that the accompanying statement of unaudited financial results are not prepared in accordance with applicable accounting standards and other recognized accounting practices and policies except for the matters described in the preceding paragraphs.

1.11	Employee benefits
	a) Short term employee benefits
	All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, wages and bonus etc. are recognized in the statement of profit and loss in the period in which the employee renders the related service.
	b) Long term employee benefits
	Defined contribution plans
	The company deposits the contributions for provident fund scheme to appropriate authorities and these contributions are recognized in the statement of profit and loss in the financial year to which they relate.
	Defined benefit plans
	The company's gratuity and pension plans are the defined benefit plans. The present value of gratuity and pension obligation under such defined benefit plans are determined based on actuarial valuation carried out by an independent actuary using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present valuation of the obligation under defined benefit plans, is based on the market yield on government securities as at the valuation date having maturity periods approximating to the terms of related obligations. Actuarial gains and losses are recognized immediately in the statement of Profit and Loss.

Notes to Financial Statements for the fourth quarter ended 31st Mar' 2024	
	Other employee benefits
	Benefits under the company's leave encashment scheme constitute other employee benefits. The liability in respect of leave encashment is incorporated on the basis of actuarial valuation carried out by an independent actuary at the year end.

1.12	Taxes on income
	Tax expense comprises current and deferred tax. Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.
	Deferred income taxes reflect the impact of timing differences between taxable income and accounting income originating during the current year and reversal of timing differences for the earlier years. Deferred tax is measured using the tax rates and the tax laws enacted or substantively enacted at the reporting date. Deferred income tax relating to items recognized directly in equity is recognized in equity and not in the statement of profit and loss.
	Deferred tax liabilities are recognized for all taxable timing differences. Deferred tax assets are recognized for deductible timing differences only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. In situations where the company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognized only if there is virtual certainty supported by convincing evidence that they can be realized against future taxable profits.
	The carrying amount of deferred tax assets are reviewed at each reporting date. The company writes-down the carrying amount of deferred tax asset to the extent that it is no longer reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available.
1.13	Provision and contingencies
	a) The company recognizes a provision when there is a present obligation as a result of a past event and it is probable that it would involve an outflow of resources and a reliable estimate can be made of the amount of such obligation. Such provisions are not discounted to their present value and are determined based on the management's estimation of the obligation required to settle the obligation at the balance sheet date and adjusted to reflect management's current estimates.
	b) i) The policy for providing provision for bad and doubtful debts up to F.Y 2015-16 was based on non litigated receivables outstanding for more than 60 months and w.e.f F.Y 2016-17 the accounting policy has been changed i.e., based on LT Private bill stopped services arrears and HT Private bill stopped (including court cases) outstanding arrears for more than 24 months.
